

# YOUR LEADING SOLAR SOLUTIONS PROVIDER

Residential & Commercial  
Solar Power

Energy Storage Solutions

Solar Hot Water

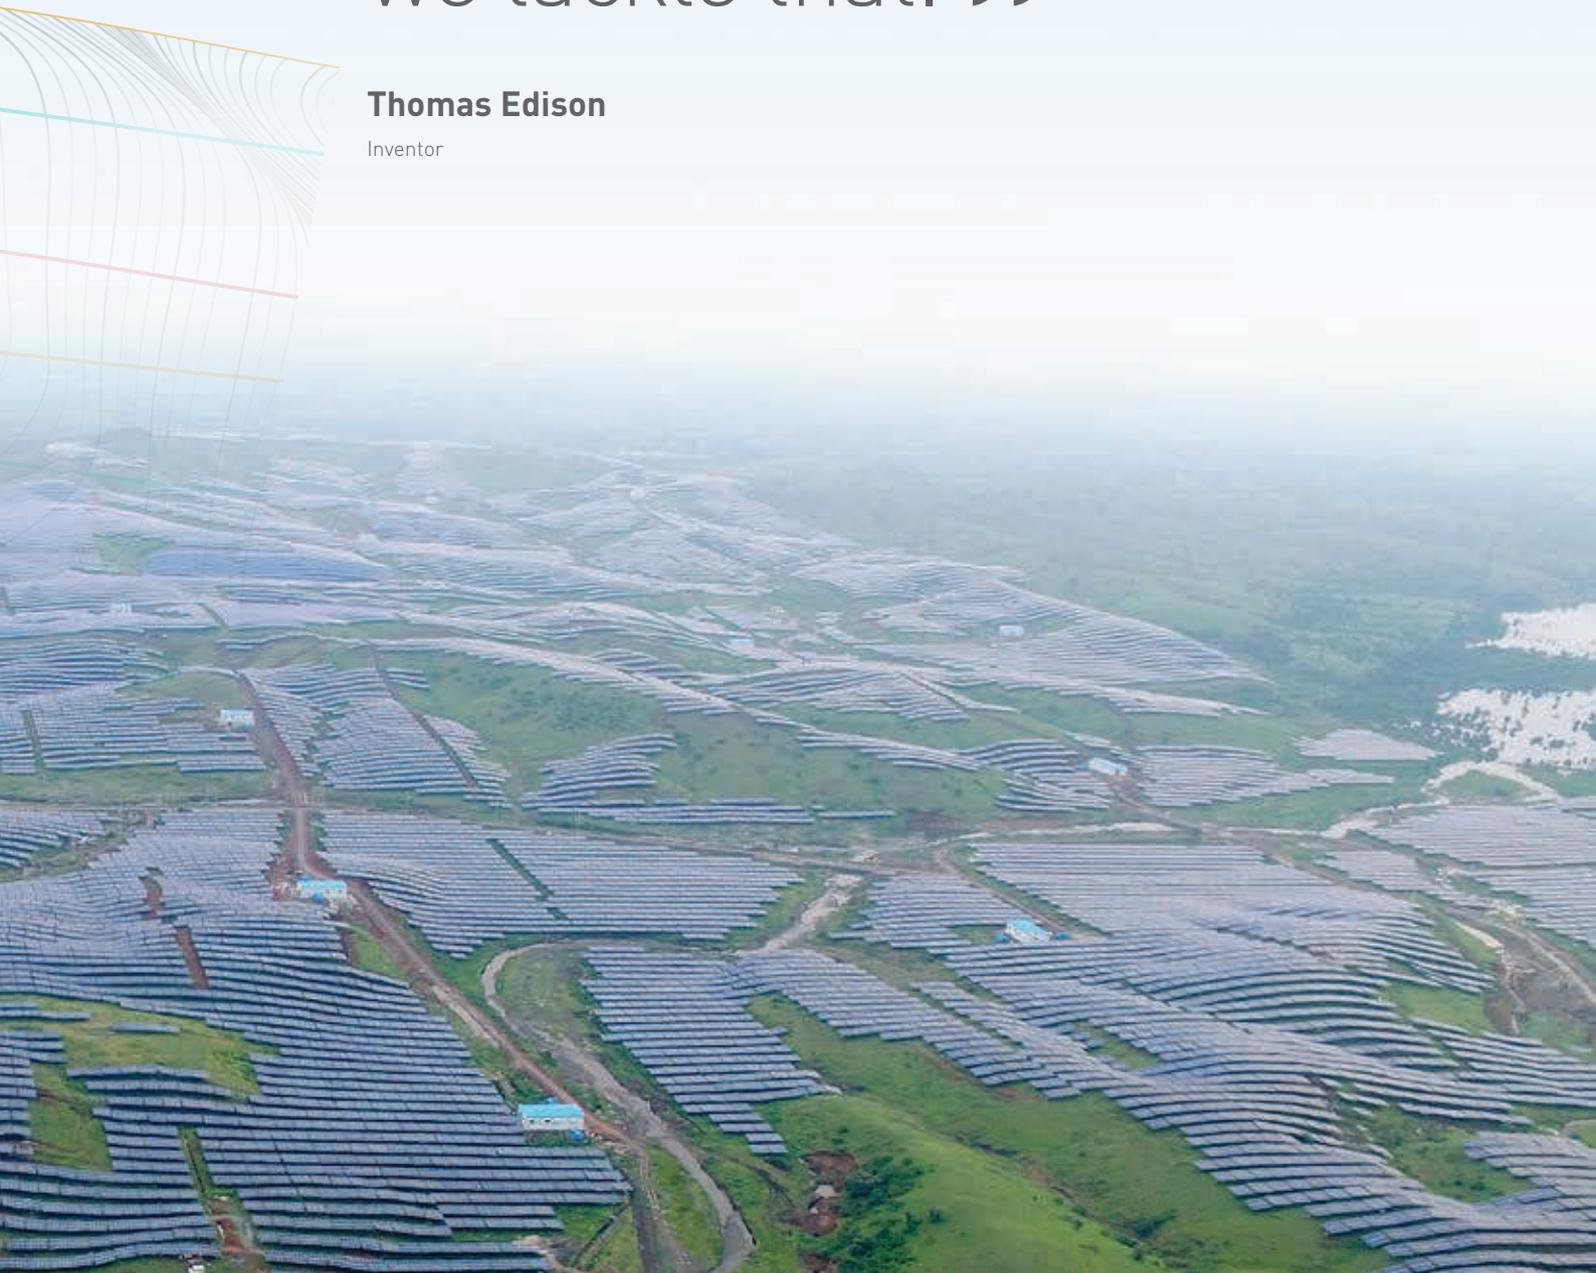

**Company Profile**

“ I’d put my money on the sun and solar energy. What a source of power! I hope we don’t have to wait until oil and coal run out before we tackle that. ”

**Thomas Edison**

Inventor

Dear Solar Enthusiast,

The global demand for sustainable energy solutions is on the rise. We are aware of our commitment to elevate the quality of life, while at the same time generating green energy responsibly. We will continue to do all it takes to make solar energy affordable and accessible to people in need across Kenya.

We are a regional active solar energy solutions provider, specializing in solar lighting, heating, storage, residential commercial solutions. With an African presence across three different countries, we are an active contributor in shaping the solar revolution. Carrying forward the rich legacy and extensive manufacturing experience of Suntastic Solar Solutions, since 2010, is been actively building on a decade old success story. We successfully demonstrated our capability even before the solar sector witnessed active growth and development in Kenya. Today, Suntastic Solar has been rated by various clients and organisations, for product and process quality.

We source best-in-class equipment from all around the world to deliver the finest product quality. Our highly competent research and development team constantly works on improving our product portfolio and introducing new products to serve our customers better.

I invite you to be part of the solar energy revolution with us.

Truly yours

SUNTASTIC SOLAR SOLUTIONS

# WHY SWITCH TO SOLAR?

Kenya's household electricity bills have doubled in the last five years, so it's no secret that more and more Kenyans are making the switch to solar in a bid to drastically reduce their electricity bills.

The sooner you make the switch to solar, the sooner you would start saving too. Consider the amount your home or business uses and spends on electricity each year (although it's not usually a fun thought). Many people are surprised to find out that it is now typical for a good quality system to pay for itself in as little as 3-5 years, with years of significant savings ahead. We understand it might seem complicated to get a real understanding of what your returns might be on a solar system, so let's look at just how good the benefits are so you can make an informed decision.

- Electricity is expensive and solar energy systems give the typical homeowner an easy way to save
- The technology is stable and efficient.
- By transitioning to solar, you can reduce your greenhouse gas emissions, minimise your carbon footprint and reduce the demand for fossil fuels for rooftop solar
- Your Energy Rates Will Never Rise
- Home's property value increases with solar panels.
- Solar is guaranteed to perform

# OUR VALUES

Driven by committed leaders, who lead with integrity and passion, the core values that define us are:

## EARN TRUST

We listen attentively, speak candidly and treat each other with respect, driving cross functional synergies to build long term relationships. Trust and transparency remains at the core of all that we do.

## OWNERSHIP

We take accountability for what we do, keeping organizational objectives before everything else. It's not about "my work is done", it's about reaching the final goal.

## CUSTOMER OBSESSION

Customers are the reason why we exist, and all our actions are directed to ensure the ultimate customer delight. A happy YOU creates happiness within.

## HIRE AND DEVELOP THE BEST

We hire the best, value their contribution and growth, and nurture them to create future leaders.

## INNOVATE AND SIMPLIFY

We believe in keeping things simple. We imagine, we invent and design better and faster ways of doing things.

## EXCELLENCE OR NOTHING

We believe in continuously raising the bar for ourselves, setting new benchmarks and delivering the highest standards of performance.

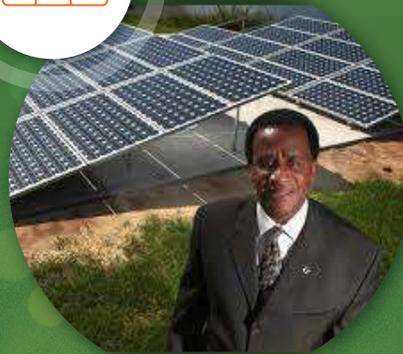

## INTEGRITY

We conduct our business ethically, follow the law of the land, and do the right thing at all times.

# SOLAR LIGHTING SOLUTIONS

## BENEFITS

### NO MORE BILLS

Entirely powered by solar energy. Lighting systems use solar cells, which convert sunlight into electricity. The electricity is stored in batteries for use at night.

### ENVIRONMENTALLY FRIENDLY

Green alternative to traditional lighting because they use absolutely no power from the grid.

### LOW COST

Prices for solar lights have fallen by around 80% in the past 6 years and are expected to drop even further.

### EASY INSTALLATION

### LOW MAINTENANCE

## OUR PRODUCTS

SOLAR FLOOD LIGHTS

5 Year WARRANTY

20W-120W RANGE

PORTABLE SOLAR KITS

5 Year WARRANTY

10W-140W RANGE

SOLAR GARDEN LIGHTS

5 Year WARRANTY

30W-150W RANGE

SOLAR STREET LIGHTS

5 Year WARRANTY

30W-150W RANGE

# SOLAR WATER HEATING

## HUGE SAVINGS

You can save up to 65% on water heating bills

## ENVIRONMENTALLY FRIENDLY

No emissions or gaseous pollutants

## FLEXIBILITY

Our Systems can be either ground-mounted or roof-mounted depending on your requirement

HIGHLY EFFICIENT

LONG SERVICE LIFE

## ECONOMICAL

3 to 4 years money-back on initial money spent, its a worthy investment.

# ...THAT LOWERS YOUR BILLS

# SOLAR WATER PUMPING

## LOW COST

Solar water pumps have extremely low operating costs as no recurring costs for electricity or fuel

## LOW MAINTENANCE

Due to less moving parts of solar water pumps, they are usually low maintenance.

## VERY RELIABLE

In remote areas where electricity is unavailable

## LONG SERVICE LIFE

## ENVIRONMENTALLY FRIENDLY

No emissions or gaseous pollutants

## ECONOMICAL

3 to 4 years money-back on initial money spent, its a worthy investment.

# ...THAT SAVES YOU FUEL COSTS

# SOLAR POWERED FREEZER CONTAINERS

## APPLICATIONS

- Vaccine Storage
- Food Storage
- Medicine Storage
- Agricultural Produce Storage

## EASY INSTALLATION

Designed to enable rapid installation in remote areas and harsh environments with standard equipment and without the need of skilled workers

## EASY TO TRANSPORT

Its 40ft. This solution enables cost-efficient and standardized shipping to all locations.

## EASY TO OPERATE

LOW MAINTENANCE

MODULAR SYSTEM DESIGN

...COOLING USING ENERGY OF THE SUN

# COMMERCIAL SOLAR

## SYSTEM DESIGN

We design turn-key solar solutions to help businesses across Kenya achieve long-term and successful energy independence.

## FULL SYSTEM INSTALLATION

We love the technical details. So you don't have to.

## SYSTEM MAINTENANCE

As your system approaches the end of its productive life, or if something unusual does happen that needs attention, Sun-tastic Solar can help you keep your solar systems in working order. Even if we didn't install you can still count on our maintenance services.

## DIVERSIFIED PRODUCTS

- Solar Lighting
- Power Backup
- Solar Water Heating
- Rooftop Solar

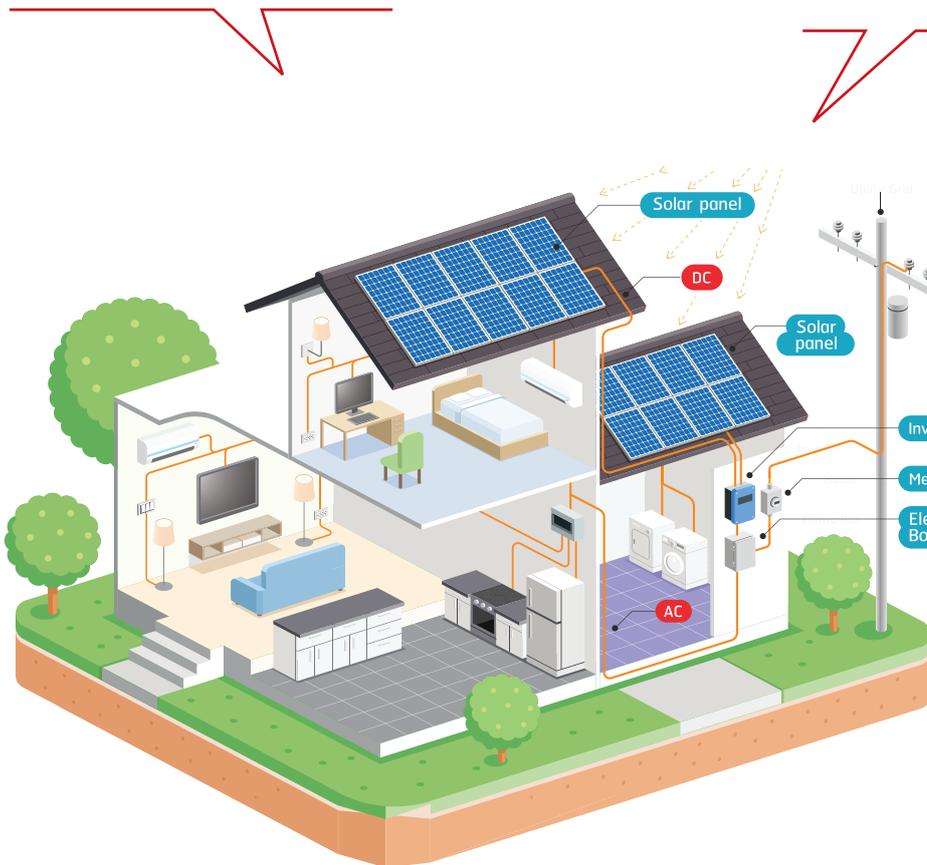

## LATEST TECHNOLOGY

...THAT FITS ALL  
YOUR NEEDS

# RESIDENTIAL SOLAR

GENERATE YOUR OWN POWER

STORE YOUR OWN POWER

SELL EXCESS POWER

REDUCE YOUR CURRENT ENERGY BILLS

HEAT WATER USING SOLAR

AVOID BLACKOUTS INTERRUPTIONS

...THAT SOLVES YOUR PROBLEMS

# ... YOUR SATISFACTION

## EXTENSIVE EXPERIENCE

Proven track record of more than 10 years of providing solar solutions.

## BEST IN CLASS SERVICE AND PRODUCT QUALITY

Thorough quality checks every process

## CUSTOMIZED SOLUTIONS

We supply according to your energy needs and requirements

## DELIVERY FOCUSED APPROACH

Timely delivery and commitment

## DIVERSE PORTFOLIO

Wide range of products for solar lighting, solar heating and power backup.

SUNTASTIC SOLAR SOLUTIONS

# OUR CLIENTS

We've built trust among our clients and have shown commercial enterprises that solar is not only good for the environment, but also good for business.

## EDUCATIONAL INSTITUTIONS

Education facilities are excellent candidates for solar conversion, particularly large campuses spread out over a wide geographic area. For schools, solar panels can easily offset monthly utility bills. With a larger installation, it may even be possible to switch to 100% renewable energy. In addition, solar energy in schools presents a great teaching opportunity that can enrich classroom content with real-world examples of the benefits of renewable energy.

## OUR PRODUCTS

- Classrooms Solar Lights
- Dormitory Solar Water Heating
- Portable Solar Kits
- School Power Backup Systems
- Solar Bags

## HOSPITALS

Hospitals require a constant supply of electricity. That is due to the critical needs of the sector they operate in. Hence, solar solutions for hospitals prove a remarkable solution. Solar solutions ensure that their power never goes off. Hence, they lay a strong emphasis on power back ups. That is how they keep their operations continuous.

## SUNTASTIC SOLAR SOLUTIONS

## OUR CLIENTS

## INDUSTRIES

Suntastic Solar provides end-to-end solar solutions to industries. With us as solar solution providers, our clients get 40% of the investment back as energy savings in the first year and a total payback period of 5 years. Following that, free electricity for the rest of the solar panel lifespan of 25 years. We are an experienced Industrial solar solution provider with a proven track record and technical expertise. We can also provide you the best consultancy to meet your industrial energy needs using solar.

## OFFICES

Commercial buildings (offices and other business organizations) depends on electricity for most of their energy consumption needs and the consumption of power in an office building during the day time is much higher which makes them ideally suited to use our solar solutions. Offices and Businesses can use solar panels and solar thermal panels for a variety of uses including pre-heating ventilation air, water heating, solar cooling and lighting and electricity.
